“Dowsing Extravaganza For Thoughtforms and Treasure”

with Master Dowser and Author

Frank Jordan

Join us for an evening of Dowsing, Dowsing, and More Dowsing! Frank, Tom, and Mike will be setting the stage by placing random and various Thoughtforms in and around Forest Hall AND we will be hiding 3D Treasure there as well! Instead of having an official lecture type presentation our time together will be a combination of Presentation, Instruction, Expert Guidance and lot's of Hands-on as we have FUN learning and developing this vital skill. Dowsing is NOT just about locating a water source and you will be amazed at all the uses you will find once it 'gets under your skin'! Bring your tools and get Ready to Rumble!

Frank Jordan of Boise, Idaho has been a member of ASD for 35 years. He created the Idaho Society of Dowzers serving as President for six years and a Vice-President for four. Frank has been a Dowser for 61 years beginning as a Rancher in Eastern Oregon. He is an active Water, Mineral, and Missing Persons Dowser recently locating a missing girl in Reno, NV by Map Dowsing and Distant (Remote) Viewing.
